To Sarah White,

Although the mess at Walton-Lonsbury has/had been building up for far too long a period of time, I do wish to commend the EPA for its ongoing cleanup efforts. I do not know exactly what anyone has in mind for the land after the cleanup is finished and the property is sold,;however I do think that the best use for it would certainly be for it to become an apartment (and possibly also retail) complex. This is what Renaissance Place, across from the Attleboro transport center is being used for. The main and most pressing need for the citizens here, is for reasonably priced, subsidized housing. Also, some efforts are being made to bring back or have new businesses here, which all but vanished with the opening of the Emerald Square shopping mall---Which, by the way, is not being frequented nearly as much as it had been at one time.

This is but one suggestion, which I hope you will duly and fairly consider. I am certain you will receive many other ideas. Please consider, first of all, perhaps with input from our mayor and city council, what would truly be in the best interests of the (in many cases elderly, disabled, and of low income,), citizens of this city. I thank you for your time and consideration in this vitally important matter.

Sincerely,

David Daugman
